| BRISC | Alice has a mathematics test for which she is underprepared. She has to do at least one question correctly to pass the test. He decides to do a question which needs her to find the smallest prime number which is larger than a given integer N. Your task is to find and return an integer value representing the smallest prime number larger than N. | 091 |
| | Input Format: | ĭ |
| 50091 | input1: An integer value N | 0 |
| | Output Format: | BRI |
| - Q | Return an integer value representing the smallest prime number larger than N. | |
